Reporter Express X64

Designed to be the best "ETL" (extract, transform, and load) tool for Windows NT/2000 NT 5.0/2000 5.1/2001 NT 5.2/2000 SP6/2000 SP7/2001 SP1/2000 SP2/2003, Reporter Express Activation Code from Quest Software transforms IT data into reporting formats used by the enterprise. With its "extract, transform, and load" (ETL) architecture, Reporter Express efficiently queries information on all corporate users and groups, inventory groups, users and groups, and their properties. Without hard coding, Reporter Express queries each of the hundreds of thousands of users and groups in the network, and loads the information into SQL Server Reporting Services (SQLRS) for fast, accurate reporting. Based on native SQL code, Reporter Express runs extremely fast and is scalable to networks of up to 20,000 users and groups. Features: - Integrated into Microsoft Windows NT/2000 operating system (including Server/95/2000/XP) - Query, transform, and store all users and groups - Query, transform, and store the properties of users and groups - Customize report display - Query the network at runtime or at application start-up - View any field of any group or user - Filters users and groups based on your organizational standards - Print a list of users and groups, their properties, and the date of last access to all active user groups in a network - Quickly create report definitions and run reports with one click - Automatically remove old report data for easy management - Database engine, SQL Reporting Services, and Web services support - Ability to install on an active domain - Native ETL code in C++ Reporter Express System Requirements: - Microsoft Windows NT/2000 operating system, including 95/98/2000/XP - Microsoft SQL Server, SQL Reporting Services, and Web services support - Microsoft Visual C++ - One copy of Microsoft SQL Server Reporting Services for Web Services Reporter Express Pricing: - Free trial available for 30 days - One-time purchase license - \$99.95 per additional user - Additional licenses available upon request - Fee includes use of Reporter Express for 90 days - Free support Microsoft Windows is a registered trademark of Microsoft Corporation. Reporter Express Crack + With Keygen

Reporter Express by Quest Software is a feature rich and easy to use network security utility designed to assist the Windows network administrator. It allows users to view network status, inventory users and groups, and determine corporate IT policy compliance quickly and easily. Key Features: 1. The Console Manager: The Console Manager allows network administrators to create custom reports by selecting users or groups, their property values, and compare these values to a standard set of values. The Console Manager allows you to create rules for users and groups, and properties to filter your report. Once you have your rules and properties in place, you can save your report and have it run on demand. 2. Scoping: You can use scoping to specify which users or groups will be included in a report. Scoping allows you to quickly and easily determine which users to report on. 3. Favorites Repository: You can create your own reports in the Favorites Repository. These favorites will be automatically selected when they are used as the starting point for reports. You can also add new reports to the favorites repository. 4. Custom Reports: Reporter Express gives you the ability to create your own custom reports. These reports can be saved for future use. 5. A-Z Admin: Reporter Express gives you the ability to view any group or user information for any group or user in the network. 6. Accumulative Summary: Use the Accumulative Summary report to view all user and group property values and compare them to a standard set of values for your organization. Download by: If you do not have a copy of Windows NT/2000/XP running on the systems you wish to use Reporter Express, you can run it on a test server and evaluate it before you buy. About: Quest Reporter Express by Quest Software is a tool designed to assist the Windows network administrator. It is a feature rich and easy to use network security utility designed to assist the Windows network administrator. The Reporter Express uses SQL reporting to create powerful, fast, and useful reports. The product's main function is to report user and group information. It does this by gathering the information in the database and generating reports of users and groups. The Reporter Express is a Windows NT/2000/XP native application. It requires an active Windows NT/2000/XP operating system and can be used on any UNIX-based system. Product Technologies: Product features the following technologies: 1. Reporting:

What's New In?

Reporter Express from Quest Software will let network admins on MS Win NT/2000 system rapidly assess network status and security, inventory users and groups, and determine corporate IT policy compliance through concise reports. As network security concerns become more vital to business, Windows network administrators require a tool that presents a 'network view' of all users and groups and their properties. However, there are no native tools in Windows that offer all this information in one place. Quest Reporter Express from Quest Software helps network administrators address these needs easily without burdening the network. With the capability to view all users and groups, network administrators get the right information to make fast, informed decisions. Quest Reporter Express adapts to your needs, not the other way around. Quest Reporter Express efficiently queries the network, the results are gathered and displayed in concise reports, giving administrators a single overall view of their corporate IT infrastructure. Here are some key features of "Reporter Express": ¶ The Console Manager lets you configure and distribute reports on user and group attributes based on your enterprise's standards. Create your own frequent reports as an administrator or account operator. ¶ Scoping is a configurable, easy-to-use method for limiting your field of reporting within a domain to speed up reporting on specific portions of your network. ¶ Store your favorite reports in the Favorites repository for fast and easy report generation. Limitations: ¶ Quest Reporter Express is unsupported freeware. The license key is provided in the download package and expires at the end of 90 days, to renew, you must contact your sales person for a new key. Gator is a utilities package designed to help solve your computer problems quickly and easily. This package has a lot of useful tools, most of which are free.
