All 3D movies are never real in any way, shape, or form.Q: how to use NopCommerce to build a gift card management system I'm new to NopCommerce and I'm trying to use it to build a gift card management system. What I want to do in NopCommerce is create a table of gift cards (inserting the gift card data into the tables and loading them from a SQL Server Compact database) and then using an admin page to add the gift cards and their values to the database which is then read by the front end to show gift cards, their expiry and values. I think the main question is will this be the best way to do what I want to do in NopCommerce? A: I think there are several parts to your question: How to build your own gift cards store How to build a gift card management admin How to handle gift cards in the retail environment How to load SQL Server Compact data into NopCommerce store Here are a few resources I found to help with your build: NopCommerce and Open Source
